SPECIAL DISPATCHES TO THE N. Y. TIMES.

WASHINGTON, Tuesday, March 29.

THE CASE OF CAPT. FITCH.

A Court of Inquiry to examine into the removal of Government stores from the front and from Culpeper on 7th of February, for which service a hundred cars were ordered by Capt. FITCH, Quartermaster at that post, have reported that no further action was necessary. Gen. MEADE, in reviewing the proceedings, says,

"No severer censure can be passed, upon the court than the publication of his own statement of facts and opinions thereon. A Quartermaster," he says, "in charge of a depot, without orders from any one, proceeds to break up his depot, embarrass the transportation of supplies by irregularly making requisition for three times the number of cars necessary to move stores on hand; when called upon to explain his conduct, attempts to shield himself by alleging the orders of an officer who had no right to give him an order, and did not attempt to do so, and continues the loading of his stores after he has been officially informed they were not to be removed. Still the court fails to see anything in this conduct calling for punishment or reproof. The conduct of the court is not concurred in. The Chief Quartermaster of the army will, as soon as possible, relieve Capt. F. Fitch from the charge of the depot at Culpeper and will assign him to duty in some position where he can be taught to use discretion and coolness in the discharge of his duties."

UNSEEMLY CONDUCT OF AN OFFICER.

A highly excited individual named Capt. FRANK BURR, formerly on the staff of Gen. ROSECRANS, thrust himself unceremoniously into the room of the Senate Military Committee on Monday, and demanded to know why the committee had failed to recommend him for promotion, and behaved in a very unmilitary manner, generally. His case was promptly reported to the War Department, when his arrest, preparatory to a court-martial, was ordered at once.

AN OFFICER DISGRACED AND DISMISSED.

The Court-Martial at New-Orleans, in the case of Maj. ALEXANDER S. HITE, Nineteenth Regiment Corps d'Afrique, sentenced him to degradation from his rank, in presence of his troops, and confinement at Dry Tortugas one year. The findings and sentence of the court have been approved by Gen. BANKS, by general order, in which he says,

"The offence of which this officer is proved guilty—an attempt to effect by violence advantages over promiscuous women—is disgraceful to himself and criminal in the eyes of God and man. The country does not wish in its service men who would so disgrace the uniform they wear."

DISMISSED FROM THE ARMY.

Lieut. CYRUS SCOTT, One Hundred and Twenty-second Ohio; Lieut. ALBERT H. RANKIN, Sixty-first Pennsylvania, and Lieut. EUGENE SULLIVAN, Fifth New-York Volunteers, have been dismissed the service of the United States.

ADMINISTERING SWIFT JUSTICE.

The numerous Courts-Martial now in session here to-day received orders from the War Department to hurry up business by sitting without regard to hours. Many good officers on court-martial duty could very advantageously be employed in the field.

THE NEW-YORK CUSTOM-HOUSE AND TRADE WITH THE REBELS.

Investigations into New-York Custom-house affairs, by the Committee of the House, develop the fact that a trade of such magnitude has been conducted between parties in the North and rebels on the Rio Grande, that the rebel agent at Matamoras has pocketed out of it over a million dollars as his share of the profits. Who the guilty parties in the Custom-house are, of course is not known, publicly at least, but the arrest of an employe, on Saturday last, directly by the committee, it is strongly believed, will lead to further arrests.

THE NEW NAVY-YARD.

The question as to the location of the new navy-yard remains still in suspense. Its final disposition is proposed to be arrived at by a conference of the Senate and House Naval Committees on next Thursday. Mr. BRANDEGEE completed his argument to-day before the House Committee in favor of New-London, between which place and League Island it is understood the committee are equally divided.

THE NAVAL ACADEMY QUESTION.

The proposed removal of the Naval Academy from Newport to Annapolis is not likely to be consummated. The Secretary of War having possession of buildings at the latter place for military purposes, declines to give them up for the present, at least.

ADMIRAL WILKES' DEFENCE.

Admiral WILKES opened his defence to-day in the court-martial, by the introduction of evidence to show that owing to the crippled condition of the *Wachusetts*, he had no other vessel at hand for his flagship when he transferred his flag to the *Vanderbilt*. His visit to Lagueyra had the double purpose of procuring information in regard to the *Alabama*, and of receiving, by the request of the Secretary of State, $150,000 indemnity by the Government of Venezuela to our citizens.

THE QUICKSILVER CASE.

Efforts and counter-efforts concerning the prospective decision of the Supreme Court in regard to the quicksilver mining case, are made by parties who have no access to good authority for them. The long delay in publishing their decision is construed by Government officials as indicative of a final decree against the company. But the Judges have been unusually reticent, and it should be known that all pretensions to a knowledge as to what they will do are but efforts of a few stock-jobbers to affect timorous speculators.

THE TAX BILLS.

The consideration of the Tax Bill absorbed the time of the Ways and Means Committee to-day, exclusively. Slow progress was made, and some days must elapse before a report can be made. In the meantime, the Tariff Bill will be held in abeyance until the Tax Bill is reported to the House.

MR. BALLARD'S NOMINATION.

The nomination of HORATIO BALLARD as Consul to Havana seems to have hung fire in the Commerce Committee of the Senate, a majority of whom oppose immediate action.

THE AIR-LINE RAILROAD.

It is affirmed that responsible parties are about to come on here with a proposition to Congress to build an air-line railway on a route entirely new from any heretofore suggested. They will agree to put down a double track in the most substantial manner, at a saving of fifty miles in distance between this and New-York, over present routes.

The Special Committee on an air-line railway between Washington and New-York are still engaged in receiving the views of outside parties, and have not as yet arrived at any conclusion.

MILITARY APPOINTMENT.

Capt. WM. B. ROE, Sixteenth Michigan Volunteers, Acting Signal Officer, is announced as Chief Signal Officer of the Department of Washington.

DISPATCHES TO THE ASSOCIATED PRESS.

WASHINGTON, Tuesday, March 29.

YOUNG NAVAL OFFICERS DELINQUENT.

The following order has just been issued:

NAVY DEPARTMENT, Tuesday, March 22.

GENERAL ORDER, No. 21.—Ensigns R. S. CROW and H. J. LAKE, having been reported to the department for going below during their watch, without being regularly relieved, while on duty on board the United States steam frigate *Niagara*, (Commodore T. T. CRAVEN commanding, and Lieut.-Commander HENRY ERBEN, Executive Officer,) their appointments to the grade of Lieutenant, for which they were recently nominated to the Senate and confirmed, have been suspended.

For the same offence the appointments of Acting Ensigns, W. S. DANA, E. T. HAMMERTON, WM. B. HOPE and C. RATHBORNE, have been revoked, and they have been ordered to return to their studies at the Naval Academy at Newport, R. I., as midshipmen.

Acting Ensign R. C. IRVIN, who was attached to the *Niagara*, and was guilty of the offence of overstaying his leave, has been ordered to the United States steamer *Glaucus*, (third-rate,) with directions that he shall not, for six months, be permitted to go out of that vessel.

The department cannot permit the plea of ignorance, or that of usage on board the vessels at the Naval Academy, on the part of these officers, who, however young, have been long enough in the service to aspire to and expect promotion. If they had no other source of information, they should have learned from the "Act for the better Government of the Navy," with which all persons in the service are supposed to be familiar, that to "leave his station before regularly relieved" is an offence that subjects the person guilty of it to the punishment of death. It must indeed be obvious to the most ordinary intelligence, that if an officer cannot be trusted on his watch he has yet to learn the simplest practical duties of his profession, and is unfitted for a station where the lives of others, as well as the honor of his country, may depend on his vigilance and fidelity.

The lenient course which the department has adopted in this case has been induced by the consideration that although the severe punishment which a Court-martial would adjudge might be more effectual as a warning, yet the young officers in fault may, with some reason, plead in extenuation of their offences, that they were not duly admonished by those whose duty it was to impress them with a proper sense of discipline, of the serious nature and inevitable consequences of their conduct. It is not probable that so many of them would have erred habitually on board the *Niagara* except from this cause.

GIDEON WELLES,
Secretary of the Navy.

NAVAL ORDER.

Lieut.-Com. SAMUEL MAGRAW has been ordered to the command of the United States steamer *Cambridge*.

THE DEFENCE OF THE LAKES.

The President communicated to-day the report of CHARLES B. STUART, Consulting Engineer, upon the improvements to pass gunboats from tide-water to the Western Lakes. The Engineer assumes that upon the connection of those lakes with tide-water depend the jurisdiction of our Government, common defence, as well as welfare, and that the Mississippi River should likewise be connected with the Lakes; urges that the great food-producing region uses this chain of lakes for the transit of exports and imports, which is a line of communication at present utterly defenceless; leaving the lake cities to destruction by English gunboats on declaration of war by Great Britain, inflicting damage to which the cost proposed by the improvement would be utterly insignificant. He makes various recommendations, and gives, as the total estimate for improved gunboat locks for the Erie, Oswego, Champlain and the Cayuga and Seneca Canals, with seven feet of water, over $12,000,000, and with eight feet of water $20,000,000, and the cost of a canal around Niagara Falls at from $10,000,000 to $13,000,000.

THE LATE MR. LOVEJOY'S PLACE ON COMMITTEES.

Representative GRINNELL, of Iowa, has been appointed a member of the Committee on Territories; and Representative BRAMAN, of Michigan, a member of the Committee for the District of Columbia, in place of Representative LOVEJOY, deceased.

KENTUCKY.

Gov. BRAMLETTE and Ex-Senator DIXON will leave this afternoon on their return to Kentucky. It is understood that they had a free interchange of opinions with the President and Secretary of War, and both parties are in accord and harmonious as to the enforcement of the draft in that State under the Amendatory Enrollment Act.

PROCEEDINGS OF CONGRESS.

SENATE.

WASHINGTON, Tuesday, March 29.

A NAVY-YARD AND DEPOT ON DELAWARE RIVER.

Mr. COWAN, of Pennsylvania, (Union,) introduced a bill to establish a navy-yard and naval depot on the Delaware River. It provides for the selection of the location by a commission of seven scientific men, none of whom shall own land within fifty miles of the Delaware River, the decision of a majority of whom, when approved by the Secretary of the Navy and the President, shall be final.

Referred to the Committee on Naval Affairs.

EXPENSES OF THE INDIAN WAR.

Mr. RAMSEY, of Minnesota, (Union,) presented a bill appropriating money, not exceeding nine hundred and twenty thousand dollars, for the payment of further expenses in suppressing the Indian hostilities during 1862.

Referred to the Committee on Military Affairs.

THE DEATH OF MR. LOVEJOY.

The proceedings and resolutions of the House in reference to the death of Hon. OWEN LOVEJOY, late a member of that body, were communicated to the Senate.

Mr. TRUMBULL, of Illinois, (Union,) paid a brief tribute to the character of the deceased in life, which, he said, would be indorsed by the people of Illinois, not only on account of his consistency on the question of Anti-Slavery, but on other vital questions. Mr. LOVEJOY did not live long enough to see the great object of his life accomplished—the entire abolition of Slavery. He lived long enough, however, to see the Initiative steps of this great end. Like the great Jewish leader, he lived long enough to catch a glimpse of the promised land. Mr. LOVEJOY was a true Christian, a genial companion, an able statesman, an affectionate husband and father—and what more could be said of him? There was no other consolation for his bereaved family and friends, except that which came alone from the Hand above.

Mr. TRUMBULL, in conclusion, offered the usual resolutions in sympathy and condolence.

Mr. POMEROY, of Kansas, (Union,) would pay a brief tribute to the memory of one he learned to love long ago. He was the valued and tried friend of the people of his State during a period when such friendship was invaluable. During the long and trying years of 1855 and 1856 his hands, and others like his, sustained the people of Kansas in their struggle for freedom.

Mr. SUMNER, of Massachusetts, (Union,) said it was proposed to adjourn now in respect to the memory of the deceased, but could the wishes of the late Representative prevail, the Senate would sit and perfect measures for the abolition of Slavery. Such an act would be more acceptable to him, if living, than any words of compliment, for he was a man of deeds, not words, and in the language of an Oriental writer, "Words are the daughters of earth, deeds the sons of heaven." It would be in vain that we passed tributes to Mr. LOVEJOY, if we do not heed his voice and pass resolutions against Slavery. The deceased was a positive man and a faithful legislator; when other men were timid he was unhesitating. Though he was a hater of Slavery he was a steadfast lover of the whole country. The place filled by the lamented departed will be hard to fill.

The resolutions were then adopted, and the Senate adjourned until to-morrow.

HOUSE OF REPRESENTATIVES.

WASHINGTON, Tuesday, March 29.

COLLECTION OF HOSPITAL DUES FROM VESSELS.

Mr. WASHBURNE, of Illinois, (Union,) reported a bill from the Committee on Commerce providing for the collection of hospital dues of vessels sold or transferred in foreign ports.

The collections are to be made through consuls and commercial agents.

The bill was passed.

THE ANTI-SLAVERY CONSTITUTIONAL AMENDMENT.

Mr. STEVENS, of Pennsylvania, (Union,) said, as several gentlemen desired to deliberately consider the proposed amendment to the Constitution, introduced by him yesterday, to prohibit Slavery in all the States and Territories, he (STEVENS) would move its postponement for two weeks. This was agreed to.

NAVAL AFFAIRS.

Mr. RICE, of Massachusetts, (Union,) from the Committee on Naval Affairs, reported a bill that persons between 26 and 30 years of age may be appointed Assistant Paymasters, provided that the number is not thereby increased; and that examinations of students for admission into the Naval Academy shall take place when they are between 14 and 18 years of age.

The bill was passed.

Mr. RICE also reported a bill regulating and changing in some particulars the method of making promotions in the navy. Heretofore, it is said, promotions have been made according to seniority, but this bill provided for promotion according to official capacity and physical fitness, to be determined by a Board of Examination, appointed by the President. Officers not recommended for promotion are to have an opportunity to be heard through a revisory board. One of the sections also provides for the appointment of paymasters and engineers of the fleet.

The bill was passed.

Mr. RICE also reported a bill for the classification of Paymasters' Clerks in the navy, making four classes, at the following salaries: $1,500, $1,000, $800 and $700 per annum.

Mr. RICE also reported a bill fixing the date of the loss of the brig *Bainbridge* at the 21st of August, 1863, in order to fix the pensions of the deceased officers and sailors.

Both the above bills were passed.

Mr. RICE, of Mass., (Union,) reported a joint resolution, authorizing the Secretary of the Navy to sell at public auction lot No. 12, in the Village of Beckett's Harbor, if not being required for the Navy-yard.

The resolution was passed.

Mr. PIKE, of Maine, (Union,) from the Naval Committee, also reported a bill authorizing, during the present war, the appointment of Acting Lieutenant, Commanders and Commanders, at the same rate of pay as are allowed to such grades in the regular navy.

The bill was passed.

Mr. PIKE also reported the Senate bill regulating courts-martial, which was passed, after striking out the first section, which provides that volunteer appointments in the navy shall be subject to the action of the Senate, the same as regular appointments.

The House then went into Committee of the Whole on the bill amendatory of the National Banking Law.

THE NATIONAL BANKING LAW.

The House then went into Committee of the Whole on the bill amendatory of the National Banking Law.

The amendment offered by Mr. HOOPER, of Massachusetts, (Union,) on Friday, was agreed to.

This amendment provides that banks with a capital of not less than $50,000, may, with the approval of the Secretary of the Treasury, be organized in any place, the population of which does not exceed six thousand.

Mr. BOUTWELL, of Massachusetts, (Union,) offered an amendment to strike out the authority proposed to be given to the banks to buy and sell gold and silver coin and bullion, and loan money on real and personal security. These banks with circulation of three hundred millions of dollars will be able to fix the standard of value, which was the very thing the House had been endeavoring to prevent.

Mr. STEVENS, of Pennsylvania, (Union,) opposed the amendment. The section left the banks to buy gold the same as the State banks and individuals. The time had passed for us to consider gold as currency. It was a commodity the same as a bill of exchange.

The amendment of Mr. BOUTWELL was rejected.

Mr. BROOKS, of New-York, (Dem.,) offered an amendment, the object of which was to prevent banking on real estate, which, in New-York, had been found unsafe.

Mr. BROOKS said that it was useless for him to protest against a wrong principle of banking, and he referred to the fact that on a bill of such vast importance they were acting without the presence of a quorum.

The amendment of Mr. BROOKS was rejected.

An amendment was proposed striking out the requirement that every director of a bank, during his whole term of service, shall be a citizen of the United States.

The amendment was disagreed to by a vote of 28 against 68.

The committee considered the bill up to the twenty-third section.

On motion of Mr. GARFIELD, of New-York, (Dem.,) an amendment to the twenty-second section was adopted, authorizing the issue of bills of the denomination of one, two, and three dollars.

Mr. HOOPER, of Massachusetts, moved that a proviso be added to the section, to the effect that not more than one-sixth of the circulation furnished to any bank under this act, shall be of a less denomination than five dollars, and that after specie payments shall have been resumed, no circulation of a less denomination than five dollars shall be furnished to any such association, which was agreed to.

The committee rose and the House adjourned.

Copperhead Outrage in Missouri.

ST. LOUIS, Tuesday, March 29.

A special dispatch to the *Democrat*, from Charleston, Coles County, says the Copperheads came into that town to attend court yesterday, with guns concealed in their wagons and armed with pistols. Some soldiers in the Court-house yard were drawn into an affray, and a general fight occurred. The County Sheriff sprang from the Judge's stand and commenced firing a pistol at Union men. Major YORK, Surgeon of the Fifty-fourth, was one of the first victims. The Union men being outnumbered at the Court-house, ran to the houses and stores for arms.

They were fired upon from the windows. Ten or twelve were wounded. Col. MITCHELL, of the Fifty-fourth Regiment, was badly wounded. OLIVER SALES was killed. JAMES GOBBLES, WM. HARRY, T. G. JEFFERYS, and several others belonging to the Fifty-fourth, were wounded severely. The Fifty-fourth Regiment arrived in the afternoon and formed on the square. NELSON WELLS, the man who fired the first shot, was instantly killed. JOHN COOPER, a prisoner, was shot while trying to escape.

Col. BROOKS, with a squad of men, went in pursuit of the gang of copperheads about seven miles.

Capt. WILLIAMS has some twenty prominent Secesh implicated in the affair, under guard at the Court-house. Col. MITCHELL had a conference with Hon. O. B. FRANKLIN and Judge CAMPBELL, who seemed very anxious that steps should be taken to prevent a further outbreak.

Marine Disasters.

PORT MONROE, Tuesday, March 29.

BOSTON, Tuesday, March 29.

Third New-Jersey Cavalry.

TRENTON, Tuesday, March 29.

The Third New-Jersey Cavalry Regiment was reviewed this morning by the Governor and left for Washington, crossing the Delaware at this point. They go as far as Bristol to-day, reach Kensington to-morrow, and pass through Philadelphia on Thursday. The regiment is 1,300 strong, and the finest yet sent from New-Jersey. Col. MONTGOMERY is in command.

DEPARTMENT OF THE SOUTH.

Affairs at Hilton Head and Beaufort—Medals of Honor, &c.

From the Palmetto Herald.

The Hilton Head and Beaufort papers of March 24, have the following items:

MEDALS OF HONOR.

It will be remembered that after the reduction of Fort Wagner and the demolition of Fort Sumter, last Fall, Gen. GILLMORE announced that medals of honor would be presented to such enlisted men as had especially distinguished themselves by gallant conduct during the siege. They have been struck, and samples are already here, though the entire number will scarcely be ready for delivery sooner than two or three weeks. There are about five hundred candidates for the honor, each of whom will have his name neatly engraved on the buckle to which the medal is attached. The medal itself is of bronze, about the size of the silver dollar of blessed memory, and bears upon its obverse in bold relief, a very accurate representation of Fort Sumter at the termination of the first bombardment, taken from an original drawing by Mr. W. T. CRANE, with the legend "Fort Sumter, AUG. 23, 1863," the whole encircled by a border of stars. Upon the reverse in this inscription, in raised letters: "For gallant and meritorious conduct. Presented by Q. A. GILLMORE, Major-General." The name of Gen. GILLMORE is a *fac simile* of his autograph. The medals are beautiful in design, and are very neatly and carefully made. They come from the establishment of BALL, BLACK & Co., New-York City.

From the New South.

SALES OF PLANTATION LANDS.

The auction sales of plantation lands in the parish of St. Helena, by the Direct Tax Commissioners, have about closed, owing to the fact that preparation for the coming crop should be begun immediately, and the surveys having not yet been completed, the plantations on Port Royal Island will be leased for the current year at the rate of about two dollars an acre for arable land, and a just compensation for the use of buildings. The bidding at the sales has been very spirited, notwithstanding threatened enforcement of preemption rights by persons desiring to buy under suspended instructions. plantation houses and grounds at a dollar and a quarter an acre. Over ten thousand acres have been sold at an average price of about nine dollars an acre, including improvements. 250 acres of the Daniel Pope place on St. Helena Island was bid off by Capt. WM. J. RAMSDELL for $6,050. This is the highest price yet paid. The lowest sales have been at but a trifle over the minimum price, which is $1 25 an acre.

In one or two instances, freedmen have bought the plantations on which they were formerly held as slaves, and several parties have bid, ostensibly for the colored people. The greater number of purchases, however, have been made by persons from the North, who have at once gone into the work of cultivation. Persons intending at the beginning of the sales to buy for speculation, have for the most part considered the prices too high for them.

THE FLORIDA EXPEDITION.

PILATKA OCCUPIED—THE ENEMY AT GAINESVILLE.

Correspondence of the New South:

PILATKA, FLORIDA,
Wednesday, March 16, 1864.

On the 9th instant an expedition left Jacksonville for this place, arriving the following morning. No enemy was found here. Our forces are now intrenched, and hold the town, waiting patiently for the enemy to come and see us.

Reports from deserters and refugees say that Gen. PATTEN ANDERSON, is between here and Gainesville, with 10,000 or 12,000 Confederate troops. These reports must be taken with a large grain of salt; as the credibility of Florida *corn-crackers* is not wholly reliable. And yet the enemy may be in considerable force in our front; and also upon the line of the Fernandina and Cedar Keys Railroad.

We learn of a diabolical atrocity that CHAMBERS' Cavalry committed on two negroes here, something like a year or more ago. These negroes had run away from Orange Springs, had crossed the St. John's, and were trying to get to St. Augustine, for Federal protection. They were unquestionably running away from their masters, and were in pursuit of freedom. But they were captured, brought here, and hung on a tree near the town. They had no civil or military trial; had committed no crime, but were executed simply to "put down the nigger" in Florida. One of these poor fellows was cut down before life was extinct—buried alive, as it were, and afterward *his head beaten to pieces with muskets*. Such is life in the peninsula of the Confederacy.

The scenery here is beautiful, orange groves, banana trees, pomegranates and other tropical trees and shrubs abound. The bay south of the town is magnificent, and the noble St. John's is here full three miles wide. Only four families were living here when our troops took possession of the town. They were too poor or lazy to move elsewhere. Pilatka had five hundred inhabitants and four large hotels. It was the head of steamboat trade in the interior of Florida, previous to the war.

On the 14th ult., one of our gunboats captured at Lake George a small steamer called the *Sumter*, with a small quantity of cotton, rosin and turpentine. The *Sumter* has been unloaded and sent up to the lake again in pursuit of another Confederate steamer, said to have a large lot of cotton upon her.

Our command, under Col. BARTON, will advance this morning, to feel the enemy, and ascertain the correctness of reports as to his being in force.

Patriotic Contribution from the New-York Board of Brokers.

The following correspondence has been handed us for publication:

No. 23 WILLIAM-STREET, March 25, 1864.

MY DEAR SIR: The collection of the funds subscribed by the members of the Public Board of Brokers, having been completed yesterday, I hasten to transmit a check for $5,000 (say five thousand nine hundred dollars,) being the sum subscribed by the individual members, and also a check for $1,000 (say one thousand dollars,) the amount appropriated by the Board out of its own funds—making the sum of six thousand nine hundred dollars for Gen. HANCOCK'S Corps. I but express to you and Gen. HANCOCK the good wishes of the Board for the success of his mission, and that he will soon be able to appear at the head of his strengthened columns, to do service to his country, in this crisis of her fate.

Yours, very respectfully,
S. J. JOSEPH, Treasurer.

We have already enlisted eleven hundred recruits for the Second Corps, and the number is rapidly increasing.

Yours, respectfully,
THEODORE ROOSEVELT,

THE WAR IN THE SOUTHWEST.

Forrest Advancing on Columbus, Ky.—Cutting of Telegraph Lines—The Movement of Troops—Memphis Cotton Market.

CAIRO, Tuesday, March 29.

FORREST, with a force estimated at 7,000, was reported within eight miles of Columbus, Ky., last night. They cut the telegraph lines between that place and Cairo yesterday.

About forty more prisoners, captured at Union City, arrived here last night. They report that only 250 prisoners were captured with Col. HAWKINS, and parties of them were escaping every day.

The steamers *St. Cloud* and *Perry* have arrived from Memphis the 27th. They bring no news of general interest. The *St. Cloud* had 450 bales of cotton, mostly for Evansville.

The Second Wisconsin and Fortieth Illinois veterans have arrived en route home.

The Memphis *Bulletin* of the 27th reports: "Cotton has undergone considerable change since our last report. There has been some action in better qualities, and rates went up rapidly during the day, closing at 4c. above last quotations on all qualities. Receipts about 100 bales by wagon; shipped 700 bales to Cincinnati on the *Glendale*. Middling to strict middling, 87c.@88c.; good middling, 80c.@83c.; middling fair, 81c.@83c."

FROM KENTUCKY.

Division of the State into Two Military Districts—Capture of a Railroad Train by Guerrillas—Reports from Chattanooga.

LOUISVILLE, Tuesday, March 29.

In pursuance of directions from Gen. SCHOFIELD and in accordance with Gen. GRANT'S orders, Kentucky has been divided into two districts. The Western District comprises all between the Nashville Railroad and the Cumberland River, under Gen. BURBRIDGE, with headquarters on the railroad.

The Eastern District comprises all between the Nashville Railroad and Big Sandy River, under Gen. HOBSON, with headquarters in the field. The whole is to be under the command of Gen. BURBRIDGE, with headquarters at present in this city. That part of Kentucky west of the Cumberland River belongs to the Department of Tennessee.

The express train which left Louisville Monday morning for Lebanon, was captured by ten guerrillas, and the two passenger cars of the train burned.

A guard of seventeen Federal soldiers on the train surrendered without firing a gun. This guard had been ordered to Louisville under arrest.

Federal scouts have proceeded four miles beyond Bull's Gap, and report no signs of LONGSTREET'S forces.

Gen. VAUGHN has been appointed Provost-Marshal of Louisville, vice Maj. FITCH, who rejoins his regiment.

The Chattanooga *Gazette* says the rebels claim to have 50,000 men at Dalton and vicinity, and that they will capture Chattanooga and occupy Tennessee when LONGSTREET moves into Kentucky, which they say he will do forthwith with 26,000 men.

All the heavy artillery is being removed from Kingston to Altoona.

The rebel Gen. JOHNSON, has restricted his officers from Major-Generals, down to one horse.

The Paducah Affair.

CAIRO, Monday, March 28.

Our forces, under Col. HICKS, at Paducah, comprised the First Battalion of the Sixteenth Illinois, numbering 200 raw recruits, under Maj. BARNES, three companies of the One Hundred and Twenty-second Illinois, 130 strong, under Maj. CHAPMAN, and 250 of the First Kentucky Heavy Artillery, (colored,) under Lieut. CUNNINGHAM.

The steamer *Ducotah*, burned at the Marine Railroad, was owned by Capt. JOHNSON, of Paducah, and was valued at $20,000. WOLFE & BROTHER estimate their loss by plundering at $25,000.

The steamer *Bell* has arrived, bringing 200 bales of cotton for St. Louis.

REVIEW OF THE FIRST CORPS BY LT.-GEN. GRANT.

HEADQUARTERS ARMY OF THE POTOMAC,
Tuesday, March 29.

Gen. GRANT, accompanied by Gen. MEADE, reviewed the First Corps, (now a portion of the Fifth,) this morning, near Culpeper. While passing along the line they were greeted with the most enthusiastic cheers. Gen. MERRITT'S cavalry division was also reviewed, the whole presenting a fine appearance. The Second Corps was to have been reviewed this afternoon, but a heavy rain-storm setting in, which still continues, the review was postponed.

Naval Movements.

THE COMMAND OF THE IRON-CLAD PURITAN.

The Secretary of the Navy has given the command of the great iron-clad *Puritan*, now in course of completion at Greenpoint, and sister ship to the *Dictator*, to Commodore RAPHORD. This is the most exalted command at the disposal of the Navy Department. The *Puritan* has twice the offensive power of the *Dictator*, and will have four enormous guns, instead of two. Commodore RAPHORD has been the commander of the Brooklyn Navy-yard for some years. He entered the service on a Missouri appointment on the 1st of April, 1825, and has consequently been in the navy nearly forty years. He was thirteen years at sea, having last been Captain of the steam-sloop *DeSoto*. He was a schoolmate of Admiral DAHLGREN, Commodores ROWAN and ROGERS, Capts. MEADE, UPSHUR and others.

The *Puritan* is rapidly preparing for her trip to Europe. The inner shell of the turret is now being dragged along the wharf, from the house where it was built to its place on board the vessel. It is slid along on greased ways by means of an immense pulley-block, the rope being wound on a windlass by horse-power. The turret rests stationary on its ways till the rope is stretched to a certain tension, when it slips forward a foot or more at a step. This interior shell is formed of four plates, each one inch thick. When it is in place on the vessel, it is to be surrounded from top to bottom by hoops, each five inches thick and eleven inches wide; these hoops being formed in quarter sections, so that four pieces reach round the turret. These hoops are not pierced by bolt-holes, but are held in place by the outer shell of the turret, which is six inches thick, built up of plates each seven-eighths of an inch in thickness. This outer shell is to be put together just above the turret, and then lowered into its place with the aid of hydraulic presses.

RANK FOR WARRANT OFFICERS.

The warrant officers of the navy, through a committee appointed for the purpose, have memorialized Congress for the establishment of a certain rank or grade for the officers they represent. They ask that for the first five years' service, they be made to rank with Ensigns; that after five years they be made to rank with Masters; that after having faithfully served for ten years, they receive a commission, not to conflict with the officers of the line; that the title "Forward," where it is used to designate the Forward Warrant Officers of the United States, be stricken from the Naval Register, so that it may read, and they be known as "Warrant Officers in the Naval service of the United States." The grounds on which these officers—boatswains, gunners, carpenters, and sailmakers—ask for this assignment of rank, are briefly, that they actually exercise, in their several departments, a military authority over the crew. Frequently they are called upon to perform other and responsible duties, pertaining exclusively to the line, such as the subordinate command of divisions, the command of power and parties of men on duty ashore; and in case of sickness or disability of the Lieutenants of the vessel, those of a watch are charged upon them; and in cases of extreme emergency, the actual command of the vessel may devolve upon them.

THE MARINE CORPS.

The following appointments have been made in the United States Corps of Marines:

Capt. W. L. Shuttleworth to be a Major, vice Major J. Watson, deceased; First Lieut. G. P. Houston, to be Captain from the 9th of February, 1864, vice W. L. Shuttleworth, promoted; Second Lieut. R. O. N. Fore, to be First Lieutenant from the 9th of February, 1864, vice G. P. Houston, promoted; Edward C. Gabaudan, of New-York, twenty-one years old, to be a Second Lieutenant in the Marine Corps; W. L. Muse, of Maryland, in his twenty-first year, to be Second Lieutenant; Isaac R. Washburne, of Maine, in his twenty-first year, to be a Second Lieutenant; A. E. Young, of Massachusetts, twenty-three years old, to be a Second Lieutenant; P. O. Wheeler, of New Hampshire, twenty-two years old, to be a Second Lieutenant; J. W. Haverstick, of Pennsylvania, twenty-one years old, to be a Second Lieutenant; J. E. Brosse, of Illinois, twenty-one years old, to be a Second Lieutenant.

THE ALEXANDRA CASE.

The *Alexandra* case was resumed in the House of Lords on the 14th March. Sir HUGH CAIRNS commenced his argument on the part of the defendants, and contended that the Court of Error was right in refusing to hear the appeal from the Court of Exchequer. On the 15th the Attorney-General replied on behalf of the Crown, and the case was concluded. Judgment was deferred, and it was expected that on the 17th the Lord Chancellor would announce when the House of Lords would deliver judgment.

The London *Times* says:

"It is hardly probable that an unanimous decision will be obtained from the House of Lords, but there is a possibility that the House may decline jurisdiction, and this disgraceful result would be owing to the slovenly manner in which our acts of Parliament are drawn and modified in Committee."

UNITED STATES DISTRICT COURT.

Before Judge Shipman.

BREACH OF CHARTER—LIEN ON CARGO—DEMURRAGE.

Martin Stepanovitt, Jr., vs. *Edmund Gellibrand and 4,023 bushels of Wheat.*—This was a libel filed by the master of the Austrian ship *Imperatrice Elisabetta* upon a charter party. The vessel being in this port, the master, on the 5th of September, 1863, chartered her to Gellibrand by a written charter party to carry a full cargo of wheat and flour to London. By a clause in the charter, the freight was to have a lien on the cargo for freight, dead freight and demurrage. Thirty-five lay days were allowed for loading and discharging, to begin on Sept. 11.

The wheat in question was shipped on board the vessel by Arkell, Tufts & Co., under a bill of lading stating that it was to be subject to the provisions of the charter party. Gellibrand refused to furnish any more cargo in the vessel. The wheat on board was found to be badly infected with weevil, by which it was heating and sweating. The first intimation of its condition came from the shippers. The wheat was then examined by experts and by the Port Wardens, and it was found to be unfitly unfit to go forward on the voyage; and it also was recommended for the benefit of all concerned. The wheat was discharged from the vessel and the Austrian fleet this libel against it to recover the sum due from Gellibrand under the charter and to enforce his lien. By an order of the court in the case the wheat was sold, and the proceeds paid into the registry of the court.

Held by the Court—That the lien on the goods created by the charter and reconvened in the bill of lading, attached the moment the wheat was laden on board the ship.

That the obligation rested on the master, in spite of Gellibrand's refusal to fill the vessel up, to carry the wheat forward and deliver it at the port of destination, protected and provided only he had cargo enough on board to secure his freight for a full load. (Kent's Com., vol. 3, p. 202.)

That the master was not bound to attempt to carry freight by carrying forward an article that, in all proceability, would be so depreciated in value at the end of the voyage as to be inadequate to satisfy the claims of the ship under the charter. The shipper having laden his goods under the stipulations of the charter, is not only bound by them, but is responsible for the condition of the goods.

That the admission in the bill of lading as to the good condition of the wheat is not conclusive between the parties.

That the wheat is therefore responsible for the libelant's claim. As no freight was carried, the demurrage must be for dead freight and demurrage. The amount is to be measured by the difference between what a full cargo of wheat and flour would have netted under the charter, and what would have been netted by any other reasonable freight which the master could have obtained, with due diligence, after the charterer had abandoned his contract. And as to demurrage, the ship should recover from the expiration of the lay days till she could have, with diligence, obtained other employment.

For libelant, Messrs. Larocque & Barlow; for claimants, Mr. Sherman and Mr. Benedict.

COLLISION—PLEADING—WAIVER.

John Arendt et al., vs. The schooner Queen of the South.—This was a case of collision. The libelants were owners of the schooner *J. E. Clayton*, which was injured by a collision with the *Queen of the South* in the night of Nov. 30, 1858, off the lower end of the Cedars, on the New Jersey coast. The libel was filed March 5, 1859, and the answer Nov. 30, 1860. The answer alleged, in substance, that the *Clayton*, having a non-holder of one pair-oar of the *Clayton*, and the other that the circumstances of the collision and the manœuvres and faults which caused it were not set out with sufficient detail. The exceptions were not brought to argument until the trial of the cause.

Held by the Court—That at this late stage of the case the court will deem all questions arising on the exceptions to have been waived. They should have been determined before the proofs were taken.

That on the proofs, although the evidence is very conflicting, the weight of it establishes the fact that the *Clayton* was coming up the coast close hauled; that the *Queen of the South* was going down the coast with a free wind; that at the time when those in charge of the *Queen of the South* ought to have discovered the *Clayton* and formed a way to avoid her, the latter, that had the helm her course she would have passed the *Clayton* to leeward, and cleared her with safety; and that those in charge of the *Queen of the South* mistook the position or course of the *Clayton*, or both, and luffed, striking the latter on the starboard side, and causing the damage complained of.

That this luffing was a mistake for which the *Queen of the South* should be held responsible.

Decree for libelants, with a reference.

For libelants, Messrs. Beebe, Dean & Donohue; for claimants, Messrs. Benedict, Burr & Benedict.

COLLISION—INEVITABLE ACCIDENT.

John H. Lentzenader et al., vs. The schooner Grace Girdler.—This was a libel for a collision. The libelants were owners of the yacht *Ariel*, which was run into by the *Grace Girdler* on Aug. 5, 1863, in the East River, at the foot of Stanton-street. The vessels were both beating down the river with the wind to the eastward and south. They had just run out their long tacks, running from the Long Island shore to near the foot of Stanton-street, when both went about. The *Ariel* went about first, and was a little to the leeward of the *Girdler*. Both vessels were then on their short tacks, the *Ariel* being a little in advance. As she began to make headway, she discovered a ferry-boat coming up the river, to avoid which she luffed and was brought into the track of the *Grace Girdler*, and the collision took place.

Held by the Court—That the witnesses do not materially differ, except as to the distance from the docks at which it took place, and the speed of the *Girdler*.

That the *Girdler* having just gone about, and having but little headway on, it was not in her power to have luffed so as to have avoided the *Ariel*. No collision could have taken place but from the untoward circumstance that the ferry-boat was passing across the track of the vessels just as they had gone about. The luffing of the *Ariel* was necessary to avoid the ferry-boat, but it unfortunately brought her across the track of the *Grace Girdler* at a moment when she had no power to avoid a collision.

That the collision must be considered as the inevitable accident.

Suit dismissed, with costs.

For libelants, Mr. Black; for respondents, Messrs. Beebe, Dean & Donohue.

Alleged Cruelty on Shipboard.

MARINE COURT—TRIAL TERM.

Before Judge Allen.

Coreen Zack vs. *William Barnard.*—This was an action brought by one of the crew of the brig *William Henry* against the master of that vessel to recover $500 for an alleged assault committed on a voyage from Malaga to New-York. The plaintiff alleges that on the voyage the defendant assaulted and beat him, put him in irons and kept him confined without sufficient air, food or water. The defendant denied the assault and ill-usage, and justified his confinement on the ground that plaintiff had been insubordinate and insolent.

The defendant appeared in person and argued a motion to dismiss the proceedings on the ground of want of jurisdiction, the vessel being British. He also cross-examined the witnesses and addressed the jury in his own behalf, considering his case very ably. The counsel of his remarks he said that there were some degenerate lawyers in this City, who made a practice of sending agents on board newly arrived ships, to find out if there had been any trouble on the voyage, and to stir up sailors to sue their officers.

Mr. Woodward for plaintiff; Defendant in person.

NEWS OF THE DAY.

THE REBELLION.

Lieut.-Gen. Grant, accompanied by Maj.-Gen. Meade, yesterday reviewed the First Corps of the Army of the Potomac, now a part of the Fifth Corps. Everywhere along the lines, on his way to the review ground, the General-in-Chief was enthusiastically received by the troops.

The Palmetto (S. C.) *Herald* says:—"Nothing has been done toward raising the ill-fated ironclad *Weehawken*, and it is doubtful if any measures will ever be taken to rescue her from the shifting sands in which she lies imbedded, thirty feet below the water's surface. The task of removing such an enormous weight at so great disadvantages, is one which neither Government nor the contractors will willingly undertake. The varying currents where she sank have fixed her there immovably. The *Keokuk*, which went down on the morning of the 8th of April last, will also probably never be brought up."

An investigation has been instituted by Provost-Marshal-Gen. Hall, of the Department of the South, into the burning of numerous buildings at Jacksonville, Fla., and the depredations committed at that place by the Union troops, at the time of the expedition last year. It is understood that the parties proved to be implicated in firing the buildings and taking away property, will be tried for arson and theft.

The rebels are now reported to have five guns in position on Fort Sumter.

FROM EUROPE.

The steamship *City of Manchester*, with one day's later news from Europe, arrived at this port yesterday. The *Alexandra* case was resumed in the House of Lords on the 14th of March, the part of the defendants being argued by Sir Hugh Cairns, who contended that the Court of Error was right in refusing to hear the appeal from the Court of Exchequer. The Attorney-General replied in behalf of the Crown, and it was expected that on the 17th inst. the Lord Chancellor would announce when judgment would be delivered. In commenting upon the case, the London *Times* says that there is a possibility that the House of Lords may decline jurisdiction. Such a disgraceful result would be owing to the slovenly way in which acts of Parliament are drawn and modified in Committee. Six seamen were brought up at the Cork Assizes on the 14th, indicted for an infraction of the Foreign Enlistment Act, in agreeing to enter the United States service as sailors on board the *Keersarge*. The prisoners pleaded guilty, and were released on promising to appear for judgment when called upon. The bodies of the victims of the Sheffield disaster, to the number of 178, had been recovered, leaving 80 yet missing. Another shocking casualty had occurred from the breaking of a pump at Spittlewell Pits, by which fourteen men were drowned. The Conservatives in the British Parliament had determined upon a strenuous effort to overthrow the Ministry after Easter. Mr. Roebuck's diatribe against the North had been editorially denounced by the London *Times*. There had been a further exchange of shots between the Danes and allied German forces, with unimportant results. The Prussians had occupied the Island of Femein, capturing the garrison of 100 Danes. It is said to be authentically asserted that Denmark is indisposed to accept the armistice and conference propositions in their essential points. A Paris rumor says that Austria and Prussia eventually intend to occupy Copenhagen and dictate terms of peace from that city. The King of Sweden had indicated his intention to assist Denmark in certain emergencies, and had asked for an extraordinary loan. In Rome conflicts between the Papal and French troops continued, the populace siding with the former. The rumor of a revival of the Holy Alliance was refuted by the *Journal de St. Petersburg*.

CONGRESS.

The Senate, yesterday, did little business, adjourning at an early hour, after passing resolutions of respect to the memory of the late Owen Lovejoy. A bill to locate a naval depot and yard on the Delaware River was referred to the Naval Committee, and a bill to appropriate money to pay the expenses of the Minnesota Indian war was referred to the Committee on Military Affairs.

In the House yesterday, Mr. Stevens' joint resolution for an Anti-Slavery amendment to the Constitution was postponed for two weeks. Several minor bills pertaining to the organization of the navy were passed. The National Banking Law was then considered, and Mr. Hooper's was passed. It provides that banks with a capital of not less than $50,000 may, with the approval of the Secretary of the Treasury, be organized in any place, the population of which does not exceed six thousand. Mr. Boutwell's amendment to strike out the authority proposed to be given to the banks to buy and sell gold and silver coin and bullion, and loan money on real and personal security, was rejected. An amendment proposed by Mr. Brooks, striking out the requirement that every director of a bank, during his whole term of service, shall be a citizen of the United States, was also rejected. A proviso was added to the section, to the effect that not more than one-sixth of the circulation, furnished to any bank, shall be of a less denomination than five dollars, and that after specie payments shall have been resumed, no circulation of a less denomination than five dollars shall be furnished to any such association.

STATE LEGISLATURE.

In the Senate yesterday, adverse reports were received and recommitted relative to the Brooklyn Fire Department Bill; the petition of the Staten Island Ferry Company for a new ferry slip, and the incorporation of the Long Island Water Works Company. Also, adverse reports were made and agreed to, concerning the New-New-York Aldermanic Tax Levy Bill; the Bill for a Market in the Eighth-avenue; the Brooklyn Park-avenue Bill; the amendment of the charter of Brooklyn. Several new bills were introduced, and the following were advanced to a third reading: The General Appropriation Bill for the support of the State Government; for the payment of the interest on certain canal drafts and awards; incorporating the Central Park Hotel Company.

In the Assembly, yesterday, the following bills were passed: To legalize certain acts of the New-York Common Council; to amend the charter of the Sixth-avenue Savings Bank; to incorporate the New-York American Club. Among the reports presented was one against granting additional powers to New-York Police Magistrates.

GENERAL NEWS.

The sale by the Comptroller of several ferry franchises, which was to have followed the sale of wharves, for various reasons has been put off till Monday, April 11, and yesterday, in consequence of the death of the late Superintendent of Markets, Mathias W. Gooderson, the sale of other leases of Corporation property—chiefly of market cellars—was postponed till 1 o'clock P. M. to-day. Among other five-year leases to be disposed of to-day will be the lease of the hotel at the foot of Eighty-sixth-street, North River.

The annual trade sale of books commenced yesterday at No. 498 Broadway. The attendance was large; dealers from different sections of the country were in attendance, and a successful sale is indicated. There are 144 invoices, and those offered yesterday readily sold, and brought satisfactory prices.

The weekly report of the City Inspector shows that the number of deaths in New-York during the week past was 486—an increase of 13 over the previous week, and of 40 over the corresponding week of last year. From fever there were 40 deaths, and from diseases of the lungs 47. One person died from the use of chloroform, and nine from casualties.

In the Court of General Sessions, yesterday, Peter Burke, one of the July rioters, known as the "Man on Horseback," was tried upon an indictment for robbery in the first degree. Prisoner was acquitted on a technicality, but was remanded to prison to await his trial on other charges of robbery and arson.

The Live Stock Markets have been well supplied with animals during the past week, the total being 26,862, or 10,000 more than for the previous week. Of these 5,058 were beeves, 834 veals, 12,430 sheep, and 8,361 hogs. The close of Lent creates a greater demand for meats of all kinds, and trade is generally good, at about the old rates. .... Beef Cattle footed up nearly 4,400 at the Forty-fourth-street yards, Monday and Tuesday, all but 400 of which were on sale Monday. Prices began at an advance of ½c. ℔ lb. but fell off before the close, to ½c. ℔ lb. lower than one week ago, the average of the transactions being about 13½c. Some extra fat cattle brought 16c. ℔ lb. for the most, but generally good retail steers could be had for 14c.@15c. The stock was nearly all sold. .... Sheep are in good request at 9½c.@9¾c. ℔ lb. for good fat lots.... Live Hogs are selling quickly at 8¾c.@9c. for corn-fed, and 8¼c. for distillery hogs.

Flour and Wheat were inactive and cheaper yesterday. Corn was salable and firm. Oats were depressed. Provisions were in less demand; Pork and Lard were heavy; Hay, Sugars, Whisky and Petroleum were in fair request and buoyant. Metals were held more firmly but were rather quiet. Hops, Hides, Leather, Seeds, Tallow and Tobacco, were moderately inquired for. Freights were dull and heavy.

The price of Gold was 1 per cent. lower than yesterday, and Stocks buoyant in the afternoon. Money in quick demand at 6@7 ℔ cent.

The Ohio Copperhead State Convention.

People looked forward to the doings of this collection of Copperheads with a good deal of curiosity. Of course these doings, of whatever character, will be of very little practical consequence, for there can be no consequence without power, or at least a possibility of power. No State in this Union is more immovably loyal, and more inflexibly faithful to the war against the rebellion, than the great State of Ohio. Yet, though it was of no public moment what these Copperheads might do, it was a matter of curious speculation what they would do. How would they treat Vallandigham, "the martyr?" Last year they made common cause with him—held him out as the immolated embodiment of all the sanctities of the Constitution—and, with absolute confidence, proclaimed their purpose to avenge him with a sweeping extinction of both Lincoln and the war. The people settled the matter, when the time of trial came, by striking them to the dust, and piling over them a majority never before heard of—one hundred thousand clean. It has been a question what would be the effect of this popular visitation. Would it impel these fomenters of faction to desert their great martyred apostle, or not? It all depended upon the quality of their own martyr spirit. If it were genuine, of course they would adhere to his name and faith with a fidelity only made the stauncher by tribulation. If it were spurious, why then there would be faltering and shuffling, and probably an abandonment outright.

The test came up in this Convention on the question of putting "the martyr" on the ticket as one of the delegates at large to the National Convention. Of course, he would not be able to attend the National Convention personally, but his substitute might easily discharge all his duties. His appointment would be the most emphatic protest against the "tyranny" of which he had been made a victim, and a testimony to the world that his followers still remained true and faithful. It was very doubtful how the ordeal would be decided. On the one side was the reproach of cleaving to a man whom the people had repelled with an aversion that seemed almost like detestation. On the other side was the reproach of abandoning a leader to his fate at the time of his misfortune, when he most required sympathy and support, and when he was suffering the penalty of the very conduct for which they had extolled him to the skies. The decision was a very close one. Out of over four hundred votes given, there was a majority of only five one way. But that majority, slender as it was, yet did the business effectually. Vallandigham's name was refused a place on the list of delegates. What was an unkinder cut yet, not the slightest allusion was made to him in the resolutions adopted by the Convention. The majority would not give him even the "cold respect of a passing notice." It was manifestly their determination to disconnect the party as completely as possible from all further association with the man with whom most of all they were anxious, last year, to identify it.

If this abandonment proceeded from a change of principle, it would be less discreditable. But there is no evidence of any change of that sort. The resolutions which so carefully avoid all allusion to Mr. Vallandigham still speak plainly enough against the war, of which Mr. Vallandigham was the enemy. They impute certain characteristics to the war as now prosecuted; say that this war must be opposed, and demand "the immediate inauguration of peaceable means to obtain an honorable settlement, and the restoration of the Union under the Constitution." This is precisely in the same vein as all the peace talk of the party last year. It means simply an abandonment of all further attempts at coercion, and a complete remission of the destinies of the country to the chances of negotiation—which every intelligent man knows to be nothing more or less than a consent to a division of the Union, and an acknowledgment of the Confederacy. The rebel chiefs are just as determined to-day as they ever were to listen to no terms short of this. "The only terms we will either give or take are the terms which Gen. Lee shall dictate in Faneuil Hall," was the language of the Richmond *Examiner* no longer ago than last week. We laugh at it, because we know that Gen. Lee *will as soon dictate terms in the horn* of the moon as in Faneuil Hall. But yet it is the language of continued defiance. It expresses the spirit of the rebel Government. Whether the mass of the Southern people have this spirit or not, is of little consequence. Enough that the rebel Government has it, and that that Government has supreme control of the armies by which alone the rebellion is maintained.

It is as natural for the Ohio Copperheads to avoid Vallandigham, as it is for a burnt child to avoid fire. But if they imagine that they are any safer for doing this, while they yet stand on a peace platform, they will find the delusion just as complete as that of last year, which brought them such direful defeat, when they were confident of victory. The people of Ohio are as far from accepting peace, as they are from accepting Vallandigham; and the Ohio Copperheads, in holding to the one while discarding the other, are only preparing themselves for another total rout.

Victims of Misplaced Confidence.

We are afraid we have been swindled. It looks very much as if we had been the victims of a misplaced confidence. Trusting entirely, as we stated at the time, to the assertions of the Copperhead press, we have made mention of sundry movements alleged to be in process for the more wide-spread diffusion of the new political gospel of *Miscegenation*, and for the general elevation of the whole world and the rest of mankind to the sublime level of the African race. Catching, perhaps, somewhat of the enthusiasm with which this subject has been discussed by our cotemporaries, we have also ventured to picture some of the glories of the coming state, when all men should be of one color, and all shades and crinkles should have disappeared forever.

We have received deputation after deputation, and letter upon letter, from parties claiming to be well informed, declaring our allegations to be false, and denouncing our conduct in making them, in terms which we shall not repeat, and which we shall only characterize as more forcible than elegant, and—not to put too fine a point upon it—as decidedly profane. The "colored people" are particularly indignant. The venerable lady of color who removes the dust and ashes of the rooms inhabited by the Loyal League, but who also feels a deep and highly creditable interest in the principles and reputation of that patriotic club, tottered up our stairs, a day or two since, for the purpose of denying, in language which would have had still more point if she had had more teeth, that a colored parson is kept at the club to marry impatient miscegenators, at any hour of the day or night. She declares that she knows every nook and cranny of the building, that she sweeps it throughout twice a day, and that no parson, however black or however small, could possibly be so concealed as to escape her observation. Besides, she scorns the idea that any colored parson, who had any proper regard for his color or his cloth, would ever degrade his race by marrying one of them to a white. Such things, she has heard, are sometimes done by white folks, but never by *her* people. She brands the whole story as an infamous fabrication, designed at once to degrade the colored race, and deprive her of her situation. Sundry deputations of eloquent gentlemen from Republican clubs are equally emphatic in their protestations. They deny that they intend hereafter to expel from their party every man who has not black blood in his veins, and aver that they have not the slightest intention of inserting a plank in their platform making color a test of loyalty, either to country or to party. We have letters, too, from indignant colored cooks, repudiating all such designs as the Copperhead stories already referred to impute to them, and warning all white miscegenators out of their kitchens and off their premises.

All this body of evidence staggers us. If it is true, the Copperhead newspapers have been spreading false reports, which is scarcely conceivable. Before we yield to so shocking a suspicion we should like to have something a little tangible. We should like to ask Mr. Jay, for example, whether he does not hold that it is every man's duty, as a matter of abstract principle, to marry a negro, no matter how many wives he may have already? We should like to know whether the President of one of our Republican clubs has not in his possession a letter from President Lincoln, declaring that a house divided against itself cannot stand,—that the people of this country must either be all white or all black, and that this half-way work is contrary to the Constitution, and cannot be tolerated much longer? Has not Mr. Seward declared that an irrepressible conflict between blacks and whites is an absolute necessity, and that it can only be secured by their intermarriage? Is it not one of the designs of the Radicals in the coming National Convention to require Mr. Lincoln, as a candidate for renomination, to pledge himself to appoint no man to any office worth $3,000 a year, who is not at least half black, and to recognize none below the grade of octoroon as eligible to any office whatever under the Federal Government? And has not Chief Justice Taney been forced, by fear of premature death and discharge from office, to agree to bring the Supreme Court to decide that none but blacks are citizens of the United States, and that mere white men have no rights which negroes are bound to respect? When we receive explicit replies to these questions, we shall know better what to think of the Copperhead reports we have already noticed. Until then we shall suspend judgment.

Meantime we are very glad to learn that our vigilant fellow-citizens are taking ample precautions against the designs ascribed by our Democratic cotemporaries to the Republican party. The colored people are planting cannon in front of their dwellings, to defend themselves against a miscegenatory raid of the white bachelors of Upper-ten-dom. Barricades have been built across Shinbone-alley, and the *stern glitter of ivory through all that region* betokens the readiness of the population to measure heels with the white trash of Fifth-avenue and Madison-square. The Copperheads are responsible for this state of things. They have aroused the whole colored community, by their highly-colored pictures of the connubial fate that awaits them at Republican hands, to a state of intense excitement. We are by no means satisfied that their statements are true: but we *are* satisfied that the fools are not all dead, and that a great many persons will make themselves very, unhappy at the bare possibility that there may, after all, be something in them.

Extermination.—The rebels are perpetually telling us that we will have to exterminate the whole population of the South before we can bring their territory back into the Union. Now, at the late election for State officers in Arkansas, held under the National flag and authority, there were polled seventeen thousand votes—being one-third the entire vote of the State at the last Presidential election. Yet in other days we heard the like rebel cry from Arkansas, that we would have to exterminate everybody there before it would submit. Probably these rebel malignants simply mean that *they* themselves must be exterminated, which is quite likely to be true. Noah Webster tells us that to exterminate means, primarily, "to drive from within the limits or borders," and we shall have no peace until all malignant traitors are driven either to the other side of Jordan or of the Rio Grande.

Death of an English Officer of American Birth.

We copy from the London *Times* of the 9th inst. the sad record of the early death of a young English officer of great promise, who was born in this City, and whose parents, Mr. and Mrs. Rufus J. Cochrane, were known by many of our oldest residents. He was a nephew of Hon. Bayard Clarke, formerly member of Congress from the Westchester District of this State, and the brother-in-law of Edward King, Esq., son of the late Hon. James G. King:

An Officer Shot.—It is our painful duty (says the *Oudh Gazette*) to record a fatal accident that happened to an officer of the Eighteenth Bengal Cavalry while out shooting, about 14 miles from cantonments. After enjoying their sport throughout the morning the sportsmen had rested for tiffin, and were just riding to begin shooting again, when one of them, Maj. Gough, called for "some one with stronger fingers than his own," to come and draw back the safety-guard of his rifle trigger. He was at the same time seated on the ground, with the butt of his rifle resting on his thigh, the muzzle in the air, and pointed across a jheel. One of the others went to help him, and a few moments later, Mr. Cochrane, who was just then lighting a cheroot, moved to give his aid, passing, as he did so, before the rifle. At that very instant the hammer, that had apparently been resting on the belt of the guard only, fell on the cap, and Mr. Cochrane was shot through the heart. His death was instantaneous. The regiment to which he belonged, and a large circle of his friends in the army, have lost, through this deplorable accident, an officer of proved ability and a friend who will be regretted and missed in every circumstance of life. Mr. Cochrane was senior Lieutenant of her Majesty's Thirty-fourth Foot, and had been for two years and a half Adjutant of the Eighteenth Bengal Cavalry. He wore the Crimean, the Turkish and the Indian medals.

Fatal Casualty on the East River Railroad.

GREAT EXCITEMENT IN AND AROUND BELLEVUE HOSPITAL—A BODY TAKEN BY FORCE FROM THAT INSTITUTION.

John Donnelly, a lad 8 or 9 years of age, was on Monday evening last attempting to steal a ride by hanging to the front platform of car No. 70, of the East River Railroad line. As it was passing along First-avenue, near Twenty-seventh-street, the boy slipped off accidentally from the platform and fell on the other track.

Just as he fell another car was passing in the opposite direction, and before the driver thereof could put on the brakes, or check his horses, the wheels passed over his head, body and legs, injuring him so badly that he died while being conveyed to Bellevue Hospital. He was, however, taken to that institution, the body laid out in the usual manner, and the Coroner notified to come and hold an inquest. Meantime the intelligence of the lad's death had been conveyed to his parents, and they, in a half-frantic state of mind, at once repaired to the hospital and demanded the possession of the body. The authorities there, of course, had no right to surrender the body until the conclusion of the inquest, and they so stated the case to the parents. They then left in a high state of excitement, and soon returned with a large crowd of men and women, who forcibly burst open the gates and sealed the walls of the institution, rushed frantically through several rooms and halls, till at last they found the dead boy in a coffin. They seized it and hurried from the house, amid the protestations of the Hospital officers. The latter found it useless to contend against such numbers of highly-excited men and women, and therefore had to content themselves with a remonstrance. The body was taken to the residence of [illegible] Sixty-sixth-street, where it is reported Coroner Collin[illegible] hold an inquest this morning. So far as we learn, no [illegible] is attached to the driver of the car.

OUR CONSULAR SYSTEM.

Letter from the Secretary of State to the Chairman of the Senate Committee on Finance.

Department of State,
Washington, March 16, 1864.

Sir: Referring to my communication addressed to you on the 7th of January last, and in view of the amendment which has been offered by you, at the instance of the Committee on Finance, to restore the provisions of law which formerly authorized, as an important part of the Consular system, the appointment of Consular pupils, I beg leave to invite your attention to the Consular Convention between the United States and France, and also to the regulations for the government of Consular pupils prescribed by the President of the United States, on the recommendation of Mr. Secretary Marcy, under the authority conferred by the 22d section of the Diplomatic and Consular Act of Aug. 18, 1856.

In the consular convention above mentioned, which was negotiated by Mr. Everett, one of the most distinguished of my predecessors, whose experience in the diplomatic service of the United States had made him well acquainted with the wants of the consular service, the term "consular pupils" (*les élèves consuls*) first occurs in our diplomatic history. It was provided by the convention that "consular pupils shall enjoy the same personal privileges and immunities as consuls general, consuls, vice-consuls, or consular agents."

In case of death, indisposition or absence of the latter, the chancellors, secretaries and consular pupils attached to their offices, shall be entitled to discharge, *ad interim*, the functions of their respective posts, and shall enjoy, while thus acting, the prerogatives granted to the incumbents.

"The respective consuls-general, consuls, vice-consuls, or consular agents, as well as their consular pupils, chancellors and secretaries, shall enjoy in the two countries all the other privileges, exemptions and immunities which may at any future time be granted to the agents of the same rank of the most favored nations."

This convention has been declared by a competent English writer to be "the most complete consular convention ever concluded." * * *

DEAFNESS AND CATARRH CURED.
No. 420 SIXTH-AV., NEW-YORK, Dec. 2, 1863.
I was deaf for several years, and hearing of the great cures performed by Dr. Von Eisenberg, I was induced to place myself under his care, and I am now happy to state that my hearing was entirely restored after a short treatment. I was also suffering from chronic catarrh, of which I was also cured by the skillful treatment of Dr. Von Eisenberg. I do but justice to the Doctor in stating that in treating me he displayed that skill and knowledge which have already procured for him such a deserved reputation, and that the principles which direct his system of curing Deafness and Catarrh are such as to render success certain, in my opinion. Many months have passed since Dr. Von Eisenberg restored my hearing, and it continues as good as ever.
C. HOPKINS.

CATARRH CURED.
READ!
I have been suffering for a long time from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery, and very painful. My nostrils were constantly obstructed with a pouring fluid. That frequent sneezing, hoarseness of my voice, often attended with a fullness of my throat, great soreness, and a continual dropping. Dr. Von Eisenberg has cured me of all these disagreeable sufferings. may, indeed, say that I feel a new life. The treatment of Dr. Von Eisenberg is as skillful as it is successful. It is in my opinion impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. Von Eisenberg's care, with a certainty of being speedily cured.

HARLEM, July 20, 1863.
I have been deaf for over TWENTY-FIVE YEARS, and Dr. Von Eisenberg operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now hear well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evinces the highest practical ability. I hear perfectly. It is now over a month since the operation, and I continue to feel as well as ever.
WILLIAM LIDDLE,

No. 124 ALLEN-ST., NEW-YORK, Feb. 9, 1863.
I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.
I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his modes of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his modes of restoring the hearing are, in my opinion, correct.
JOHN TAYLOR.

NEW-YORK, July 15, 1863.
This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a total loss of hearing. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. I do with grateful thanks that give this testimony to his skill.

CHRONIC CATARRH CURED.
READ.
NEW-YORK, March 29, 1863.
"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am entirely restored to perfect health that I deemed sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

IN THE YEAR 1862.
Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs; but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases has a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Penn., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States Government. We say to the afflicted that Dr. WISHART'S Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGESTIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURIFICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflammation and restoring a healthful tendency. Let this twofold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed to resort to the means of cure.

There is not a medicine discovered that has so much power to dissolve the thick mucous that stops up the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflammation that destroy the power and vitality of the lungs and conduct the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with great confidence, as it has restored thousands of cases to health that were hopelessly given up to die.

WE DENY IT.
Having had our attention called to the report of a meeting held at the Cooper Institute, in behalf of the Sewing Women of the City of New-York, at which statements were made of the prices paid for the manufacture of FINE CUSTOM SHIRTS, and that operatives in that branch of industry were unjustly imposed upon by WEALTHY and RESPECTABLE (?) merchants, and seeing, also, that the editors of the daily and weekly journals are disposed to condemn all manufacturers as belonging to that class, we take this method of informing our patrons and the public generally, that, so far as concerns our establishments, the statements made at that meeting are FALSE IN EVERY PARTICULAR. We employ a number of women and girls in the manufacture of our PATENT BOSOM SHIRTS. The work is first-class, and only the best operatives can accomplish it. They are not compelled "TO MAKE BRICKS (SHIRTS) WITHOUT STRAW," (THREAD,) but are furnished with all the materials to prosecute their work. The wages we pay for labor alone has for a long time averaged, for SHIRT MAKERS, FIVE (5) TO SEVEN (7) DOLLARS PER WEEK; girls, three dollars. We deem this card necessary in justice to ourselves, and would say to our customers, that, while we thank them for the past, and hope for a continuance of their favors, in purchasing of us they do not lend countenance to FRAUD AND IMPOSITION. Respectfully,

DYSPEPSIA AND COSTIVENESS CURED.—D. J. TENNY'S CASE.—New-York Mercury, Jan. 14, 1860.—Whether the Brandreth Pill is ever convertible into blood, we will not now discuss. But our chief object at this time is to give a statement of a gentleman who says he has taken one of the Brandreth Pills, for at least sixteen months, daily, or about 480 days in succession, and who says that at the end of that time he considered himself cured of dyspepsia, attended by a constant costive state of the bowels, which had troubled him for a long time.
This gentleman, Mr. David Tenny, resides at the Astor House, in this City, and has been in the enjoyment of excellent health ever since he was cured by this treatment. He is an intelligent man, and there is no doubt of the truth of his statement. This proves, at least, that as many as one of the Pills prepared by Dr. Brandreth can be taken for nearly 500 days in succession without harm, and at the end of that time a dyspeptic and costive habit of body may be perfectly cured. This could not be said of any of the cathartics in use by those who style themselves the regular faculty. Sold by all druggists.

Second series of the
SCHOOL-GIRL'S GARLAND,
A Selection of Poetry, adapted to different ages, by Mrs. C. M. KIRKLAND, in 1 vol., 16mo, bound in green vellum cloth. $1 25; in full gilt, $1. Uniform with the first series.
Parents, and all interested in education, aware of the value of poetry as an element of the best culture, have felt the want of a more extensive and various collection of poetical pieces, suited to different ages, than is at present accessible—a volume which, while it retains the old favorites, shall, by introducing new and choice though less known pieces, embrace a more abundant variety. The present selection is intended to meet this want. Preference has generally been given to lively and striking poems. Picturesque, descriptive, narrative and dramatic pieces have been particularly sought, as they generally find their way readily to young hearts.

NOTICE TO THE FIRST AND SECOND MORTGAGE BONDHOLDERS OF THE PITTSBURGH, FORT WAYNE AND CHICAGO RAILWAY COMPANY.—The Board of Directors of the Pittsburgh, Fort Wayne and Chicago Railway Company have requested the undersigned to call meetings of the First Mortgage and Second Mortgage Bondholders, in pursuance of the provisions of the deeds of trust, for the purpose of considering certain modifications of the present financial system of the company, to which the assent of a majority in interest of each of those classes of bondholders is necessary to validate the proposed action. The principle of the proposed measures was submitted to the annual meeting of the corporation held at Pittsburgh on the 10th inst., as which were represented a majority of the stockholders and of each class of the bondholders, and was unanimously approved.

The undersigned, therefore, in exercise of the authority conferred upon them by Article D of the First and Second Deeds of Trust, give notice that

MEETINGS OF THE FIRST AND SECOND MORTGAGE BONDHOLDERS

will be held at the banking house of Winslow, Lanier & Co., No. 52 Wall-st., in the City of New-York, on THURSDAY, the 14th day of April, 1864, at 11 A. M., for the purpose of considering the aforesaid measures.

At such meetings the bondholders, if registered, may vote in person or by proxy.

Registration on the Voting Register can be made by any holder at the office or agency of the company, at the banking house of Winslow, Lanier & Co., where the books are now open for that purpose. *On presentation by the holder of his bonds, or on his filing the written order of the person last registered as the holder.*

The registration was originally in the names of the persons to whom the bonds were issued. In cases in which the bonds have since changed hands, the present holder can vote only by registering himself, or upon the proxy of the person last registered.

A general attendance of the bondholders is earnestly requested, as well to act on the questions aforesaid, as to perfect the organization contemplated in Article 12 of the Deeds of Trust.

The meetings of the First and Second Mortgage Bondholders will be held separately, but at the same time and place, and the holders of the Third Mortgage Bonds are invited to be present, though their action is not required by the Trust Deeds.

The resolutions adopted at the annual meeting, and the resolution of the Board of Directors requesting a call of meetings of the bondholders, are subjoined.

JOHN FERGUSON, } Trustees for the First and
SAMUEL J. TILDEN, } Second Mortge Bondholders.

RESOLUTIONS

Recommended by the Board of Directors to the Stockholders for adoption at the Annual Meeting, March 14, 1864:

Resolved, That it is expedient that expenditures for constructions, equipment, and objects pertinent thereto, involving new capital, should in the main be provided for by an increase of capital stock of the company.

Resolved, That the increase of capital stock should be made solely for the purpose of building and completing a double track, or such part thereof as may be expedient, and for equipping the road and providing such additional rolling stock, machinery, appurtenances and other facilities as may be necessary to properly do all the business which may offer, and for no other purpose, and should only be issued from year to year in such amounts as the stockholders at their annual meetings may decide upon. Their decision shall be based upon detailed estimate, made by the Board of Directors, of the amount of money necessary for the work of the year, and that the new issue of stock shall only be sold after public notice.

Resolved, That the increase of capital for 1864 shall not exceed $3,000,000.

Resolved, That the stockholders hereby recommend, and, as far as may be necessary, authorize the Board of Directors to make such agreement or arrangement with the holders of the bonds under the trust deeds as will ensure the issue of the capital stock, as indicated in the preceding resolutions.

Adopted unanimously by vote of $4,563,000 out of $6,500,000 of stock; $3,725,500 out of $5,250,000 of first mortgage bonds; $5,705,000 out of $8,150,000 of second mortgage bonds, and $1,884,000 out of $2,000,000 of third mortgage bonds. $400,000 not voting because not registered.

Resolution adopted by the Board of Directors this day:

"*Resolved*, That the Trustees under the mortgages, Samuel J. Tilden and John Ferguson, be and they are hereby requested to call, at the earliest moment possible, a meeting of the bondholders, in the City of New-York, to act upon the resolutions adopted by the stockholders at their Annual Meeting in the city of Pittsburgh, on the 10th day of March, 1864, and to obtain, if possible, the assent of the holders thereto.

PRIVATE DISEASES CURED IN THE shortest possible time, by DR. WARD & CO., No. 19 Chatham-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 20 years' practice he has cured thousands of Secret Diseases and Wrong Treatment that all others combined. I can and will cure you in less time and at less expense than any other one or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Any Syphilis—the last vestige of it eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks, permanently and speedily cured by a new treatment. Persons at a distance cured by medicines sent by express, secure from observation, or may get a permanent cure, effected by writing a full diagnosis of their case, addressed to Dr. WARD, No. 19 Lispenard-st. Call, send, or write.

$1,000 FORFEITED AND NO CHARGE UNLESS CURED.—Dr. Hunter's Red Drop cures venereal diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without confining him to the house; cures all diseases of the urinary organs; cures without the disagreeable effects of mercury; cures without the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless child-remedy is used. This is what he claims for it; and what he cures will be the best evidence. Physicians well know that scientific men, in every department of medical knowledge, begin to appreciate it; for hardly a week passes that he is not consulted by druggists, country and physicians in regard to some glorious cure effected by the use of the Red Drop. Be not too wise to read the handbill with the directions, as it will appear. It is $1 a vial, and can be obtained genuine only where he stops but at the old office, No. 3 Division-s., New-York City, since 1834. Eight separate rooms and private entrance. A ten cent bill shall secure the Monitor of Health by return mail.
